- ✓ 1 x follow spot and operator (optional, for maximum impact)
- ✓ **change room with mirrors**
- ✓ **room lighting must be dimmed significantly just before performance**

Strings on Fire will provide the following:

- ✓ **3 x wireless belt pack systems for amplification of 3 electric violins**

FIRE SPECIFICATIONS

Strings on Fire will provide the following to ensure maximum safety:

- Fire extinguisher - on stage or in the performance space – which will be visible
- 3 wet towels – which will be on stage
- Smokeless odourless fuel - "firewater" will be used
- All excess fuel will be shaken off equipment prior to lighting and cleaned up after the performance
- There will be no fuel kept in performance area or audience area
- Fuel will be kept in designated containers offstage and off limits to public
- The fire performer has current public liability insurance with Duck for Cover (please see attached certificate of currency) and is trained in fire performance safety measures.

The following measure needs to be ensured by the venue and event organisers:

- ✓ There needs to be no public access to back stage areas to ensure no access to fuel and equipment
