

# KAYAK THE OKAVANGO

## An Interactive Documentary

### WHAT IS A KAYAKING SIMULATION?

Be immersed in a guided film exploration of Botswana's Okavango Delta, one of the largest aquatic wildernesses in the world. Viewed from water level aboard a kayak, your simulated journey explores the kilometres of river branches as thousands of Africa's animals seek food and shelter from the dry Kalahari Desert.

In this temperamental environment your team leadership skills are put to the test through the pressure of unpredictable surroundings, while you explore the importance of effective journey planning, interconnection and diversity.

### A UNIQUE FORM OF INTERACTIVE LEARNING

Participants will form teams and put themselves in the position of real kayakers as they make decisions about a series of challenging scenarios that come to life on the big screen. The objective is to successfully kayak through 400+ kms of the Okavango Delta and film their expedition.

### LASTING LESSONS FOR YOUR ORGANISATION

Before the journey begins, each team will select a leader and agree on team functioning. Success will depend on each team's ability to interpret the environment, adapt to change, course correct and solve an increasingly complex set of problems.

### A VIRTUAL LEARNING ADVENTURE

The interactive documentary is flexible. It allows for co-design and customisation. It can stand alone or support other elements of your existing programme. It is easily adapted to suit your time and learning requirements.

Areas of focus:

- + Managing cyclical and unpredictable change
- + Lessons in project pivoting
- + Aligning your team

# REACH FOR THE SUMMIT

## An Interactive Documentary

### WHAT IS A MOUNTAINEERING INTERACTIVE DOCUMENTARY?

The strength and commitment of your team will be put to the test as you trek across New Zealand's Southern Alps towards the numerous peaks. You and your team will work hard as you face the realities of an unpredictable journey.

During this experience, business teams are challenged with real-life scenarios that our adventurers have filmed while climbing in and around Mt Cook in New Zealand. These scenarios, combined with spectacular footage, personal stories and expert facilitation, provide powerful and practical learning experiences. Teams get to engage and choose their own inspiring adventure.

### A UNIQUE FORM OF INTERACTIVE LEARNING

Participants will form teams and put themselves in the position of real climbers as they make decisions about a series of challenging scenarios that come to life on the big screen. The objective of this interactive documentary is to virtually summit a peak in the Southern Alps, within a specific time-frame and budget.

### LASTING LESSONS FOR YOUR ORGANISATION

Before the climb begins, each team will choose a goal, select a leader and agree on a set of guiding principles. After that, success will depend on each team's ability to interpret the environment, adapt to change, manage risks and solve an increasingly complex set of problems.

### A VIRTUAL LEARNING ADVENTURE

This interactive documentary is flexible and allows for co-design and customisation. It can stand alone or support other elements of your existing programme. It is easily adapted to suit your time and learning requirements.

Areas of focus:

- + Setting up your team to achieve your definition of success
- + Matching values to behaviours
- + Strengthen team-work and communication

# SEA OF CHANGE

## An Interactive Documentary

### WHAT IS A SURFING INTERACTIVE DOCUMENTARY?

The surfing interactive documentary is based on the real life professional career of Australian pro surfer Mark Mathews. The audience follows Mark and his support team in their search for the worlds biggest waves and competitive surfing success.

### A UNIQUE FORM OF INTERACTIVE LEARNING

Audiences are split into teams of up to seven individuals per team and every individual has a vital role to play in the team's success. Each team will be faced with challenging scenarios from the ocean, including long flat spells, dangerous conditions, and logistics problems. In addition to time pressure there will be a budget to manage, competing individual priorities and the requirement to deliver Return on Investment to sponsors.

### LASTING LESSONS FOR YOUR ORGANISATION

To succeed in the competitive multi-billion dollar surf industry, professional surfers must adapt to rapid change, be able to differentiate themselves for sponsors and work effectively in virtual teams.

### A VIRTUAL LEARNING ADVENTURE

The interactive documentary is flexible. It allows for co-design and customisation. It can stand alone or support other elements of your existing programme. It is easily adapted to suit your time and learning requirements.

Areas of focus:

- + Provide ROI for customers and stakeholders with conflicting priorities
- + Differentiate in a crowded and constantly changing market
- + How to build and maintain successful virtual teams

# TRACKING SUCCESS

## An Interactive Documentary

### WHAT IS AN ANIMAL TRACKING INTERACTIVE DOCUMENTARY?

Set and filmed in the Greater Kruger National Park, a wild and completely natural ecosystem in South Africa, this story documents Renias Mhlongo and his small team of tracking experts. Their mission is to follow and find some of Africa's most iconic animals. Tracking lions, leopards and rhinos in this environment is demanding. It draws on a complementary mix of skills, such as focus, discipline, creativity, staying open to opportunity and constant learning. Fostering and mentoring a strong and confident next generation of trackers is also key.

### A UNIQUE FORM OF INTERACTIVE LEARNING

Small tracking teams form in the room and you set off on an audio visual expedition. You become immersed in the complex task of tracking as an active participant, you become the tracker. Your goal is to find leopard, lion and rhino on foot, in one of Africa's great wild places. Guided by expert facilitation and the interactive documentary, you make the decisions.

### LASTING LESSONS FOR YOUR ORGANISATION

Success depends on knowing the animal and understanding your environment. Staying alert, adapting to change, managing risks and solving problems is vital. Business success depends on these things too. Use these lessons to help your business grow and deal with change and uncertainty. Allow the ancient art of wildlife tracking to develop and inspire your leaders and teams.

### A VIRTUAL LEARNING ADVENTURE

This interactive documentary is flexible and allows for co-design and customisation. It can stand alone or support other elements of your existing programme. It is easily adapted to suit your time and learning requirements.

Areas of focus:

- + Skills mastery
- + Customer centricity
- + Making the most of your opportunity
