

## **Production Requirements**

### **100 – 500 Pax**

Waiters On Tap is a high-energy performance that begins with an intriguing hoax element.

The three actor-dancers pose as real waiters and begin their performance one by one amongst guests before approaching the stage.

The following requirements are for an event with 100 to 500 pax. Please note that requirements may vary depending on the venue, layout etc. Waiters On Tap are a flexible act that will fit in virtually any event scenario.

- The performers will require a suitably sized dressing room, refreshments and crew meals after their performance.
- The performers will need to be dressed in the same uniforms as the waiters on the night.

## **Performance Requirements**

### **100 – 500 Pax**

- PA system with speakers to be placed evenly around the venue to ensure even sound coverage
- Experienced Sound Operator
- Foldback speakers and floor mikes (so the taps can be heard)
- A hard (tapable) floor on stage. Many stages have a carpet floor on top which it is not possible to tap on. It is best for them to perform on the stage rather than a dance floor, so everyone can see their feet, as this is visually very impressive.
- 1 x CD player AND 1 x Mini-disc player (for backing tracks)
- Staging/stage wash for venue
- 3 x follow spots with operators (optional)

## **Production Requirements**

### **500+ Pax**

Waiters On Tap is a high-energy performance that begins with an intriguing hoax element.

The three actor-dancers pose as real waiters and begin their performance one by one amongst guests before approaching the stage.

The following requirements are for an event with 500+ pax. Please note that requirements may vary depending on the venue, layout etc. Waiters On Tap are a flexible act that will fit in virtually any event scenario.

- The performers will require a suitably sized dressing room, refreshments and crew meals after their performance.
- The performers will need to be dressed in the same uniforms as the waiters on the night.

## **Performance Requirements**
